Mr. Dale Fakkema
Crane Electronics, Inc.
P.O. Box 97005
Redmond, WA 98073-9705

September 4, 2018

Dear Mr. Fakkema:

Re: Class H Manufacturer Certification, Hybrid Microcircuits, MIL-PRF-38534, FSC 5962, VQ(VQH-18-032974) , CN 064074

Your hybrid facility at No.198, Xincheng Rd., Qianzhen Dist., Kaohsiung City 80672, Taiwan (R.O.C.) was sample audited the week of March 21-23, 2018 for compliance with the requirements of MIL-PRF-38534.

An acceptable level of confidence has been established that the compliance with these requirements exists. Therefore, Crane Electronics Corporation is considered a certified Classes H manufacturer (certificate enclosed) effective August 30, 2018 retaining a Certification effective date of September 10, 1997.

This certification is for the following:

- a. Product Assurance Program Plan: QA-083 Rev. AL.
- b. Conversion of Customer Requirements: ENG-002 Rev. AT.
- c. Controlled documentation baseline for processing MIL-PRF-38534 devices: QA-039 Rev. AP.

This certification is valid until terminated by written notification from the qualifying activity. The normal period of certification is two years from the date of the audit and, if warranted, may be withdrawn by DLA Land and Maritime-VQ at any time. Your facility may be re-audited on a drop-in basis at any time.

All screening, qualification, conformance, and periodic inspection must be performed at a facility, which has a DLA Land and Maritime-VQ letter of Laboratory Suitability for the applicable test method and condition.

If you have any questions, please contact Mr. Barker at (614) 692-0596.

Sincerely,

ALAN WILL
Chief
Sourcing and Qualifications Division
