NOTIFICATION OF REJECTION OF UNILATERAL AWARD (MAR 2001)

Unless this is a bilateral award, notice of rejection as described herein is required. The Government's offer to purchase, as evidenced by this order, is made on the basis of your quotation. Although you are not legally obligated

to perform on a unilateral purchase order, you should promptly notify the DLA Aviation contract administrator in writing if you do not intend to perform this order by the specified delivery date. Prompt notification means as soon after receiving notice of award as practicable given the circumstances.

FAILURE TO PROVIDE PROMPT NOTICE WILL ADVERSELY AFFECT YOUR PAST PERFORMANCE AUTOMATED BEST VALUE SYSTEM SCORE IF THIS ORDER IS LATER CANCELLED AT OTHER THAN THE GOVERNMENT'S REQUEST.

EVALUATION AND AWARD (FEBRUARY 2013)

- (a) AWARD. The Government intends to evaluate proposals and, if necessary, conduct discussions with all responsible offerors within the competitive range. The award will be made to the offeror whose proposal conforms to the terms and conditions of the solicitation and represents the best value to the Government. Therefore, award may be made to other than the lowest priced or the highest technically rated offer.
- (b) RELATIVE IMPORTANCE AND TRADE-OFFS. The Government will base the determination of best value on a comparative assessment of the offerors' prices, past performance, and the other evaluation factors identified elsewhere in this solicitation. The determination of best value also considers the relative importance of the evaluation factors. All evaluation factors, when combined, are:
 - [] significantly more important than cost or price. As other evaluation factors become more equal, the evaluated cost or price becomes more important.
 - [] approximately equal to cost or price; or
 - [] significantly less important than cost or price. As the evaluated cost/price becomes more equal, relative importance of all other evaluation factors becomes more significant.

The final award decision may involve a trade-off among cost or price and the non-price factors. Factors that may be considered in the trade-off process include, but are not limited to:

Item criticality and weapons system application Current inventory status Historical delivery or quality problems Concerns over limited supply sources and industrial base Benefits from obtaining new sources

- (c) COST OR PRICE. The Government will evaluate the offered cost or price. The Government will add any other cost or price evaluation factors identified elsewhere in this solicitation (e.g. Buy American Act or FOB Origin transportation costs) to arrive at the offeror's evaluated cost or price. The evaluated cost or price will be used in conjunction with the other non-price factors to determine the best value to the Government.
- (d) PAST PERFORMANCE. Past performance includes, but is not limited to, the offeror's record of conforming to contract requirements and standards of good workmanship; adherence to contract schedules, including the

administrative aspects of performance; the offeror's reputation for reasonable and cooperative behavior and commitment to customer satisfaction; and generally, the offeror's business-like concern for the customer's interest.

- (i) The Automated Best Value System (ABVS) or the Past Performance Information Retrieval System Statistical Reporting (PPIRS-SR), as applicable, will be used to evaluate quality and past performance on DLA awards (see 52.215-9003 or 52.215-9022).
- (ii) In addition, offerors may submit with their offer information on past and current Federal (non-DLA Aviation), State and local government and private sector contracts performed by the offeror at the proposed performance location within the last three years that are similar in nature to this acquisition. Offerors electing to submit this data must furnish at least the following information: name and address of the contracting entity; the contract number; award and completion dates; the dollar value; the contract type; the items or services provided; two references, with title and phone number; and any problems encountered and the corrective action taken by the offeror.
- (iii) By submitting past performance information, the offeror agrees to permit the Government's representatives to contact the listed references and inquire of the offeror's performance. If more than three contracts are identified, the Government reserves the right to randomly select and limit its review to three contracts. In addition to the information provided, the Government may consider information obtained from other sources when evaluating the offeror's past performance. Offerors will be given the opportunity to discuss negative past performance information obtained from references if the offeror has not had a previous opportunity to comment on that information.
- (iv) Offerors with no past performance history (whether internal or external to the Federal government) will not be evaluated favorably nor unfavorably.
- (e) PAST PERFORMANCE EVALUATION FACTORS. The Government will use the past performance evaluation factors marked below in addition to cost or price and other evaluation factors specified in the solicitation. Unless indicated otherwise, past performance is significantly more important than other non-price factors. Within the past performance subfactors, ABVS scores/PPIRS assessments (as applicable) will be weighed most heavily. Historical quality history and delivery schedule compliance (not captured in ABVS/PPIRS) will be weighed more heavily than the remaining past performance subfactors. All other non-price evaluation factors specified in this solicitation weigh equally, unless otherwise indicated.

EVALUATION AND AWARD - ALT I (MAY 2009)

- (e) QUOTED DELIVERY. The Government will evaluate the offeror's compliance with the delivery schedule specified in the solicitation. Quoting a greater number of days delivery than requested under the solicitation will result in the quote being evaluated less favorably than a quote meeting the requested delivery schedule. There will be no evaluation preference for offered delivery which is earlier than the requested delivery schedule.
- (f) NON-PRICE FACTORS. Quoted delivery and past performance will be evaluated equally, unless indicated otherwise below.
- Quoted Delivery is weighed more heavily than past performance.
- () Past Performance is weighed more heavily than quoted delivery.
