52.246-9003 Measuring and Test Equipment MEASURING AND TEST EQUIPMENT (JAN 2014)

Notwithstanding any other clause to the contrary, and/or in addition thereto, the Contractor shall ensure that the gauges and other measuring and testing equipment, used in determining whether the supplies presented to the Government for acceptance under this contract fully conform to specified technical requirements, are calibrated in accordance with International Organization for Standardization (ISO) 10012:2003 or American National Standards Institute (ANSI)/National Conference of Standards Laboratories (NCSL) Z540.3 (R2013).

PACKAGING AND MARKING AND REQUIREMENTS (MAR 2004)

- (a) Unless stated otherwise, commercial packaging in accordance with ASTM-D-3951 is required for CONUS shipments from the contractor directly to the customer. Commercial packaging and marking is not sufficient for vendor shipments requiring movement through the Defense Transportation System (also referred to as the Military Distribution System or DLA Depot) as the shipment could ultimately be moved via Military Air.
- (b) Higher level packaging in accordance with MIL-STD-2073 is mandatory for all shipments that meet the below criteria:
- Movement through the Defense Transportation System including shipments to a Military Distribution facility or depot.
- OCONUS shipments
- FMS shipments
- Hazardous material, as cited in the AID or in the Quality Requirements Matrix.
- (c) Materials not considered as HAZMAT for CONUS or OCONUS commercial air shipments may be considered HAZMAT for MILAIR shipments OCONUS. As such, contractors/shippers shall ensure that material meeting HAZMAT definitions in DLAI 4145.3, Preparing Hazardous Materials for Military Air Shipment, is packaged in accordance with that instruction when the consignee is OCONUS and the shipment will be moved through the Defense Transportation System.
- (d) All items shall be marked in accordance with MIL-STD-129P. Hazardous items and shelf life items, as cited in the AID or in the Quality Requirements Matrix, shall be marked in accordance with MIL-STD-129P and the appropriate clauses cited in the appendix to the matrix and the contract. The contractor is required to package material in accordance with Quantity Unit Pack (QUP), specified in MIL-STD-2073 and the Unit of Issue (UI), specified in each delivery order. A packing slip shall be located in a plastic pouch on the outside of the package. For HAZMAT destined OCONUS, a hard copy of the Material Safety

Data Sheet (MSDS) must also be included.

(e) In the event of deployments, this clause may be invoked when shipments originally destined for a CONUS location are diverted to OCONUS destinations thereby necessitating movement of the material through the Defense Transportation System. In such an event, contractors will be notified by the Contracting Officer and an equitable adjustment will be made in the contract price as deemed appropriate.

NOTE: Applicable to negotiated solicitations. Offers that do not comply with the packaging and marking requirements as specified in Section D of this solicitation may be subject to rejection as being technically unacceptable.

CONFIGURATION CONTROL (JUN 2003)

NOTICE TO CONTRACTORS: The requirements of this clause are identified to MIL-STD-973. DLA Aviation will continue to reference MIL-STD-973 in solicitations and contracts until implementation of DLA configuration control requirements. The full text of MIL-STD-973 is available at:

- (a) When configuration management control is cited in the Procurement Item Description, the furnished item(s) shall conform to the approved configuration requirements/revision specified unless a variation is processed and approved as provided for at (b) below.
- (b) Variations shall be identified and approval obtained in accordance with MIL-STD-973 dated 17 APR 92, with Interim Notice 3 dated 12 JAN 95 as follows:
- (1) Process an Engineering Change Proposal for any changes to the approved configuration in accordance with Paragraph 5.4.2 and Subparagraphs thereto and APPENDIX D, except that Subparagraphs 5.4.2.3.1, 5.4.2.3.5.1, and 5.4.2.3.5.2 do not apply.
