SECTION D

D11B03 252.211-7006 PASSIVE RADIO FREQUENCY (SEP 2011) IDENTIFICATION DFARS

(a) Definitions. As used in this clause-'Advance shipment notice' means an electronic notification used to list the contents of a shipment of goods as well as additional information relating to the shipment, such as passive radio frequency identification (RFID) or item unique identification (IUID) information, order information, product description, physical characteristics, type of packaging, marking, carrier information, and configuration of goods within the transportation equipment.

'Bulk commodities' means the following commodities, when shipped in rail tank cars, tanker trucks, trailers, other bulk wheeled conveyances, or pipelines:

Sand.

Gravel

Bulk liquids (water, chemicals, or petroleum products). (4)

Ready-mix concrete or similar construction materials. Coal or combustibles such as firewood.

Agricultural products such as seeds, grains, or animal feed.

'Case' means either a MIL-STD-129 defined exterior container within a palletized unit load or a MIL-STD-129 defined individual shipping container.
'Electronic Product Code: (BPC)' means an identification

scheme for universally identifying physical objects via RFID tags and other means. The standardized EPC data consists of an EPC (or EPC identifier) that uniquely identifies an an BPC (or BPC Identifier) that uniquely identifies an individual object, as well as an optional filter value when judged to be necessary to enable effective and efficient reading of the EPC tags. In addition to this standardized data, certain classes of EPC tags will allow user-defined data. The EPC tag data standards will define the length and position of this data, without defining its content.
'EPCglobal:' means a subscriber-driven organization comprised of industry leaders and organizations focused on creating global standards for the adoption of passive RFID technology.
'Exterior container' means a MIL-STD-129 defined container, bundle, or assembly that is sufficient by reason of material, design, and construction to protect unit packs and intermediate containers and their contents during shipment and storage. It can be a unit pack or a container with a combination of unit packs or intermediate containers. An exterior container may or may not be used as a shipping container.

'Palletized unit load' means a MIL-STD-129 defined quantity of items, packed or unpacked, arranged on a pallet in a specified manner and secured, strapped, or fastened on the pallet so that the whole palletized load is handled as a single unit. A palletized or skidded load is not considered to be a shipping container. A loaded 463L System pallet is not considered to be a palletized unit load. Refer to the Defense Transportation Regulation, DoD 4500.9-R, Part II, Chapter 203, for marking of 463L System pallets.
'Passive RFID tag' means a tag that reflects energy from the

reader/interrogator or that receives and temporarily stores a small amount of energy from the reader/interrogator signal in order to generate the tag response.

The only acceptable tags are EPC Class 1 passive RFID tags that meet the EPCglobal Class 1 Generation 2 standard. 'Radio frequency identification (RFID)' means an automatic identification and data capture technology comprising one or more reader/interrogators and one or more radio frequency transponders in which data transfer is achieved by means of suitably modulated inductive or radiating electromagnetic carriers

'Shipping container' means a MIL-STD-129 defined exterior container that meets carrier regulations and is of sufficient strength, by reason of material, design, and construction, to be shipped safely without further packing (e.g., wooden boxes or crates, fiber and metal drums, and corrugated and solid fiberboard boxes).

(b)(1) Except as provided in paragraph (b)(2) of this clause, the Contractor shall affix passive RFID tags, at the case- and palletized-unit-load packaging levels, for shipments of items that-

(i) Are in any of the following classes of supply, as defined in DoD 4140.1-R, DoD Supply Chain Materiel Management Regulation, AP1.1.11:

(A) Subclass of Class I - Packaged operational rations.
(B) Class II - Clothing, individual equipment, tentage, organizational tool kits, hand tools, and administrative and organizational tool kits, hand tools, and administrative a housekeeping supplies and equipment. (C) Class III - Packaged petroleum, lubricants, oils, preservatives, chemicals, and additives. (D) Class IV - Construction and barrier materials. (E) Class VI - Personal demand items (non-military sales

items).

(F) Subclass of Class VIII - Medical materials (excluding pharmaceuticals, biologicals, and reagents - suppliers shou limit the mixing of excluded and non-excluded materials). (G) Class IX - Repair parts and components including kits, pharmaceuticals, biologicals, and reagents assemblies and subassemblies, reparable and consumable items required for maintenance support of all equipment, excluding

required for maintenance support of all equipment, excluding medical-peculiar repair parts; and
(ii) Are being shipped to one of the locations listed at http://www.acq.osd.mil/log/rfid/ or to(A) A location outside the contiguous United States when the shipment has been assigned Transportation Priority 1, or to-

The following location(s) deemed necessary by the requiring activity:

Contract Line,

Subline, or Exhibit Line Location City DoDACC State Item Number Name

- paragraph (b)(1) of this clause: (i) Shipments of bulk commodities. (ii) Shipments to location (2) The following are excluded from the requirements of

than Defense Distribution Depots when the contract includes the clause at FAR 52.213-1, Fast Payment Procedures.

The Contractor shall-

(1) Ensure that the data encoded on each passive RFID tag are globally unique (i.e., the tag ID is never repeated across two or more RFID tags and conforms to the requirements in paragraph (d) of this clause; (2) Use passive tags that are readable; and (3) Ensure that the passive tags.

(3) Ensure that the passive tag is affixed at the appropriate location on the specific level of packaging, in accordance with MIL-STD-129 (Section 4.9.2) tag placement specifications.

Data syntax and standards. The Contractor shall encode an approved RFID tag using the instructions provided in the EPC: Tag Data Standards in effect at the time of contract award. The EPC: Tag Data Standards are available at http://www.epcqlobalinc.org/standards/.

(1) If the Contractor is an EPCglobal: subscriber and possesses a unique EPC: company prefix, the Contractor may use any of the identifiers and encoding instructions described in the most recent EPC: Tag Data Standards document to encode tags.

(2) If the Contractor chooses to employ the DoD identifier Type, the Contractor shall use its previously assigned Type, the Contractor shall use its previously assigned Commercial and Government Entity (CAGE) Code and shall encode the tags in accordance with the tag identity type details located at http://www.acq.osd.mil/log/rfid/tag_data.htm. If the Contractor uses a third party packaging house to encode its tags, the CAGE code of the third-party packaging house is acceptable

(3) Regardless of the selected encoding scheme, the Contractor with which the Department holds the contract is responsible for ensuring that the tag ID encoded on each passive RFIS tag is globally unique, per the requirements in paragraph (c)(1).

(e) Advance shipment notice. The Contractor shall use Wide Area WorkFlow (WAWF), as required by DFARS 252.232-7003, Electronic Submission of Payment Requests, to electronically submit advance shipment notice(s) with the RFID tag IDs (specified in paragraph (d) of this clause) in advance of the shipment in accordance with the procedures at https://wawf.eb.mil/

52.247-9012 REQUIREMENTS FOR TREATMENT OF WOOD D47C01 PACKAGING MATERIAL (WPM) (FEB 2007)

(a) THIS CLAUSE ONLY APPLIES WHEN WOOD PACKAGING MATERIAL (WPM) WILL BE USED TO MAKE SHIPMENTS UNDER THIS CONTRACT AND/OR WHEN WPM IS BEING ACQUIRED UNDER THIS CONTRACT.

Wood packaging material (WPM) means wood pallets, skids, load boards, pallet collars, wooden boxes, reels, dunnage, crates, frame and cleats. The definition excludes materials that have undergone a manufacturing process, such as corrugated fiberboard, plywood, particleboard, veneer, and oriented strand board (OSD).

All Wood Packaging Material (WPM) used to make (c) All Wood Packaging Material (WPM) used to make shipments under DOD contracts and/or acquired by DOD must meet requirements of International Standards for Phytosanitary Measures (ISPM) 15, 'Guidelines for Regulating Wood Packaging Materials in International Trade.' DOD shipments inside and outside of the United States must meet ISPM 15 whenever WPM is used to ship DOD cargo.

used to ship DOD cargo.

(1) All WPM shall comply with the official quality control program for heat treatment (HT) or kiln dried heat treatment (KD HT) in accordance with American Lumber Standard Committee, Incorporated (ALSC) Wood Packaging Material Program and WPM Enforcement Regulations (see http://www.alsc.org/).

(2) All WPM shall include certification/quality markings in accordance with the ALSC standard. Markings shall be placed in an unobstructed area that will be readily visible to inspectors. Pallet markings shall be applied to the stringer of block on discognally composite sides of the pallet and be

inspectors. Pallet markings shall be applied to the stringer or block on diagonally opposite sides of the pallet and be contrasting and clearly visible. All containers shall be marked on a side other than the top or bottom, contrasting and clearly visible. All dunnage used in configuring and/or securing the load shall also comply with ISPM 15 and be marked

securing the load shall also comply with 15PM 15 and be mark with an ASLC approved DUNNAGE stamp.

(d) Failure to comply with the requirements of this restriction may result in refusal, destruction, or treatment of materials at the point of entry. The Agency reserves the right to recoup from the Contractor any remediation costs incurred by the Government.

52.247-9011 VENDOR SHIPMENT MODULE (VSM) F47C01 2011) DLAD

(a) Defense Logistics Agency's (DLA's) Vendor Shipment Module (a) Defense Logistics Agency's (DLA's) Vendor Shipment Moc (VSM), formerly known as the Distribution Planning and Management System (DPMS), is a web-based distribution and transportation system available to DLA Vendors for the purpose of obtaining current shipping addresses, two-dimensional bar coded shipping labels in accordance with military standard (MIL-STD) 129P, Bills of Lading, Packing military standard (MID-SID) 1297, Bills of Eading, racking Lists, and other shipping documentation. VSM replaces the need for the vendor to contact the DLA transportation office, prior to shipping, when directed in DLA contracts. (NOTE: For contracts administered by the Defense Contract Management Agency (DCMA), the vendor must contact the DCMA transportation office in lieu of using VSM, unless otherwise started in the contract.

transportation of the contract.)

(b) Use of VSM is voluntary and is especially beneficial for DLA administered FOB Origin contracts and for DLA administered contracts where ultimate destination is a

administered contracts where ultimate destination is a location outside of the United States.

(c) Vendors using VSM must possess the following minimum information technology capability:
(1) Pentium personal computer or equivalent system sufficient to access the internet.

(2) Compatible laser printer with two megabytes of memory.
(3) Internet Explorer 6.0 or higher.
(4) Adobe Acrobat 8.0 or higher

(5) Minimum 56 Kbps internet connection (d) For more information about VSM or to register as a VSM user, contact the Supply Chain Transportation Office Helpdesk at (800) 456-5507 or via email to delivery(at)dla.mil.

F47C14 52.247-9034 POINT OF CONTACT FOR TRANSPORTATION (NOV 2011) DLAD INSTRUCTIONS

(a) Defense Contract Administration Agency (DCMA) Administered Orders: Contact the Transportation Officer at the administering DCMA location.

(b) Defense Logistics Agency (DLA) Administered orders: Contact the DLA Transportation office for shipping instructions by facsimile to 717-770-2701 or via email to delivery(at)dla.mil. A return fax number must be included with your faxed request. The DLA Distribution's hours of operation are Monday through Friday, 7:00 a.m. to 11:00 p.m. and Saturday from 8:00 a.m. to 4:30 p.m. excluding holidays. For urgent requirements and questions, you may call the DLA Distribution at 1-800-456-5507. DLA's Distribution Planning and Management System (DPMS) may be used to obtain transportation instructions in lieu of contacting the transportation office.

52.247-9035 SHIPPING INSTRUCTIONS (DOMESTIC) (NOV 2011) DLAD

F47C18 52.247-9038 SHIPPING INSTRUCTION LOGISTICS AGENCY (DLA) DIRECT ACQUISITIONS SHIPPING INSTRUCTIONS FOR DEFENSE

Freight shipping addresses and scheduling instructions, if applicable, are available at Defense Logistics Acquisition Directive (DLAD) Procedures, Guidance and Instruction (PGI) 47.305-10. Contractors will need to schedule a delivery appointment prior to arriving at the depot.

252.204-7008 EXPORT-CONTROLLED ITEMS (APR 2010) DFARS

(a) Definition. Export-controlled items, as used in this clause, means items subject to the Export Administration Regulations (EAR) (15 CFR parts 730-774) or the International Traffic in Arms Regulations (ITAR) (22 CFR parts 120-130). The term includes:

(1) Defense items, defined in the Arms Export Control Act, 22 U.S.C. 2778(j) (4) (A), as defense articles, defense services, and related technical data, and further defined in the ITAR, 22 CFR part 120.

22 CFR part 120.
(2) Items, defined in the EAR as 'commodities, software, and technology,' terms that are also defined in the EAR, 15 CFR

(b) The Contractor shall comply with all applicable laws and regulations regarding export-controlled items, including but not limited to, the requirement for Contractors to register with the Department of State in accordance with the ITAR. The Contractor shall consult with the Department of State

regarding any questions relating to compliance with the ITAR and shall consult with the Department of Commerce regarding any questions relating to compliance with the EAR.

(c) The Contractor's responsibility to comply with all applicable laws and regulations regarding export-controlled items exists independent of and is not established or applicable laws and regulations regarding export-controlled items exists independent of, and is not established or limited by, the information provided by this clause. (d) Nothing in the terms of this contract adds to, changes, supersedes, or waives any of the requirements of applicable

Federal laws, Executive orders, and regulations, including but not limited to-

(1) The Export Administration Act of 1979, as amended (50

U.S.C. App. 2401, et seq.);
(2) The Arms Export Control Act (22 U.S.C. 2751, et seq.);
(3) The International Emergency Economic Powers Act(50 U.S.C. 1701, et seq.); (4) The Export Administration Regulations (15 CFR parts 730-

(5) The International Traffic in Arms Regulations (22 CFR

parts 120-130); and (6) Executive Order 13222, as extended. (e) The Contractor shall include the substance of this clause, including this paragraph (e), in all subcontracts.

I48D01 NOTE 52.248-9C01 CONFIGURATION CONTROL -ENGINEERING CHANGES, DEVIATIONS AND WAIVERS (OCT 2000) DSCC

DEFINITIONS:

(1) Engineering change. A change to the current approved configuration documentation of a configuration item at any

point in the life cycle of the item.
(2) Engineering change proposal (ECP). A proposed engineering change and the documentation by which the change is described,

justified, and submitted to the Government for approval or disapproval

(3) Deviation. A specific written authorization, granted prior to the manufacture of an item, to depart from a particular requirement(s) of an item's current approved configuration documentation for a specific number of units or a specified period of time. (A deviation differs from an engineering change in that an approved engineering change requires corresponding revision of the item's current approved configuration documentation, whereas a deviation

(4) Waiver. A written authorization to accept an item, which during manufacture, or after having been submitted for Government inspection or acceptance, is found to depart from specified requirements, but nevertheless is considered suitable for use 'as is' or after repair by an approved method.

b. Contractor Responsibility. ECPs should be used to make permanent changes in the Government Technical Data Package (TDP). Contractual relief should be requested using a (TDP). Contractual relief should be requested using a Request for Deviation or Waiver. This is because the Government requires more time to analyze any proposal to permanently change the specifications or TDP. Cost saving improvements to the TDP should be submitted as a Value Engineering Change Proposal (VECP).

NOTE: MIL-STD-973* allows ninety days to process routine ECPs. If the contractor needs a response in less than ninety days to meet contract requirements, the contractor should consider submitting a waiver or deviation along with the ECP.

consider submitting a waiver or deviation along with the ECP.

Processing Emergency and Urgent ECPs. Ordinarily, ECPs submitted by the contractor will be deemed routine. If ECP is considered to be an emergency or urgent (as defined in MIL-STD-973), immediately notify the PCO. ECPs will be reviewed for a determination on criticality, and, if determined to be urgent or critical, the appropriate processing time-frame in paragraph 5.4.2.3.1.1 of MIL-STD-973 processing time-frame in paragraph 5.4.2.3.1.1 of min-sip-, will be followed or the contractor will be notified otherwise. When submitting an ECP or Request for Deviation/Request for Waiver (RFD/RFW), the contractor must follow the instructions in MIL-STD-973 (as tailored in the following paragraphs).

- (1) Engineering Change Proposals--Required Content
- (1) Engineering Change Proposals--Required Content. (a) Follow the short form procedure in MIL-STD-973.

 1. paragraphs 5.4.8 through 5.4.8.2.1;

 2. paragraphs 5.4.8.2.3 through 5.4.8.2.7; and

 3. Appendix D instructions.

- (b) Include:
- 1. Requirements for notices of revision (NOR). (Instructions

- for NORs are in MIL-STD-973, paragraph 5.4.7 and Appendix G.) 2. Copies of drawings that have clearly been marked to identify the proposed change.
- Any other documentation that will help in reviewing the proposed change.
- Request for Deviation/Request for Waiver Required Content
- (a) Follow the short form procedure in MIL-STD-973.
- For RFD(s) -- paragraphs 5.4.8.3 through 5.4.8.3.4; Appendix E instructions.
- For RFW(s) -- paragraphs 5.4.8.4 through 5.4.8.4.4; Appendix E instructions.
- (b) Include marked drawings and any other documentation that
- will be required to review the proposed RFD/RFW. (c) Identify the number of parts affected in block 17 of DD
- Submittal Procedures
- (1) Engineering Change Proposals (ECP), Deviations and Waivers initiated by the contractor must be prepared and submitted in 7 copies with supporting data as required by b.(1) above to the ACO, with an information copy to the PCO.

- WARNING: If you do not submit complete, legible packages, ECPs may be returned without processing.

 (2) Value Engineering Change Proposals (VECPs) must comply with the requirements of the Value Engineering Incentive with the requirements of the Value Engineering Incentive clause of the contract and MIL-STD-973 and be submitted utilizing DD Form 1693 in 6 copies to the PCO with an information copy to the ACO, and an additional copy mailed direct to Defense Supply Center Columbus, P.O. Box 3990, Columbus, Ohio 43216-5000, ATTN: DSCC-VE.
 d. Contracting Agency responsibilities.
 (1) ACO Responsibility. Within ten working days from the date of receipt of contractor's request, the ACO must submit an original and two complete legible copies of the contractor's request to the applicable technical support
- contractor's request to the applicable technical support
- (2) BCPs will be reviewed and decided upon within the ninety day time frame established by MIL-STD-973. Notification of decision will be done in accordance with paragraphs 5.4.8.2.6 and 5.4.8.2.7 of MIL-STD-973.
- (3) RFDs/RFWs will be reviewed per MIL-STD-973 and decisions made within 75 days from the date of receipt from the ACO. e. Reminder - Only the PCO can change the Contract. NO OTHER GOVERNMENT REPRESENTATIVE is authorized to make a commitment for, or bind the Government,
- Questions about the status of change requests already f. Questions about the status of change requests already submitted should be directed to the procuring activity.
 g. The period of time for evaluation and approval/disapproval of ECPs (90 days) and Deviation/Waiver (75 days) shall not constitute excusable delay in the performance of this contract by the contractor or in any way relieve the contractor from compliance with the contract delivery schedule. The submission of ECPs or deviation/waiver schedule. The submission of ECPs or deviation/waiver requests by the contractor shall not preclude the Government from exercising its rights under the default clause or any other provision of the contract. Further, any such submission shall not afford the contractor any basis for a delay claim or adjustment of the contract delivery schedule, provided the Government approves or disapproves the submission within a period of 90 days after receipt thereof by the contracting officer.

 *This standard has been cancelled effective September 30, 2000 (MILT-STD-973. Notice 4), but is still required for the
